

Social Impact Award for Environmental Nonprofits

Headquartered in Portland, Oregon, Idealist Consulting is nestled between the Pacific Ocean, the Cascade Mountain Range, the Mount Hood National Forest, and the Columbia and Willamette Rivers. Our physical location has impacted our cultural maxims, and are reflected in Idealist Consulting company culture.

Idealist Consulting employees hold environmental values dear and enjoy the richness of the Pacific Northwest in many ways, from gaining certifications as Master Recycler, to fly fishing, to camping and hiking, growing gardens, and even working as climbing guides. We're institutionally dedicated to running a sustainable business and personally invested in environmental issues, activities, and ideals.

After 800 projects and 10 years experience developing CRMs for nonprofits, Idealist Consulting has had the pleasure of working with environmental organizations such as the Sacramento Tree Foundation, Access Fund, Outward Bound, and various land trusts. Idealist Consulting is offering the **Social Impact Award for Environmental Nonprofits** to show our appreciation for nonprofits focused on environmental issues and contribute to this important work. Qualified organizations must:

- Be under 5 million dollars in revenue for the most recent year
- Be committed to Salesforce.org as their primary database
- Be prepared to make a minimum \$25,000 contribution to the project
- Have a mission focused on environmental issues that is approved by the Idealist Consulting grant committee
- Have a head office based in the United States

The Social Impact Award for Environmental Nonprofits is extended in consultant labor and may not be traded for direct monetary value. In the event your project is awarded, the gift will be applied by discount toward our standard rate. Awards are determined by the Idealist Consulting grant committee which will review each applicant's qualifications and mission affinity. Some project deployment stipulations may apply.

About Idealist Consulting

Idealist Consulting is not just focused on doing well, but doing good. We provide nonprofits and businesses with advanced technical solutions that help them run more efficiently. Whether it's Salesforce consulting, mobile development, or technical training, we provide thoughtful and ethical support.
